

## SIMPLE WILL PACKAGE

Every Will is different and at Penmans we want you to sign with confidence. We do not believe that it is possible for your unique circumstances and legal requirements to be properly looked after by the completion of a 'do it yourself' kit, or filling out an on-line form and receiving an AI generated document (even on a law firm website).

Wills are important, and there is no substitute for meeting with an estate planning lawyer who will draft a Will specifically for you.

However, we also understand that you want the certainty of knowing what that care and expertise will cost you.

If your Will is simple, it will cost **\$550** for a single person, or **\$880** for a couple.

Examples of *simple* Wills documents include:

- A couple leaving their estate to each other and then their children equally and appointing each other/their children as executors. This includes leaving some specific gifts.
- A single person appointing a friend or family member as executor and leaving specific gifts and a gift of residue of their estate.

If your Will is not simple, we will provide with a fee estimate before commencing work.

We also offer a fixed fee package that includes a simple power of attorney and enduring guardianship, together with a Will.

If you are unable to attend our office and we need to see you at home or in hospital, we charge an additional fee of \$275 per visit. All these fees include GST.

### Next Steps

If you like more information, please complete our [contact form](#) and a member of our estate planning team will be in contact with you.

The information you obtain at this site is not, nor is it intended to be, legal advice. You should consult a Solicitor for individual advice regarding your own situation. Liability limited by a scheme approved under Professional Standards Legislation.
